Wilton, CT

Who I am

Production Guru. Helping bring design vision into reality is what I do. With a decade of production experience ranging from corporate to catalogs to packaging, I'm the "get it done right" guy. Speed comes as a byproduct of efficiency, and I aim to be the most efficient I can be. **Design Support.** Layout expertise, size conversions, line extensions ... any kind of work to make new layouts from a key visual or overall direction in mind comes naturally to me. Consummate team 'wingman', the '#1 support guy'. **Reliable. Smart. Efficient. Professional. Me.**
